

1 LOCKDOWN AT HOME

A household continuity analysis — not a prediction.

MISSION

Determine how long your household could safely remain inside with no electricity, running water, sewer, internet, or cell service.

STUDENT / DATE

[Your name] [Date]

Scenario begins: 6:00 p.m. tonight

PRIVACY CHECK

Do not include names of household members, address, diagnoses, medication names, valuables, weapons, entry points, passwords, or security details.

TEACHER SUBMISSION

Replace bracketed prompts with your work. Delete directions if you need space.

2 HOUSEHOLD PROFILE + DECISION

Use counts and general descriptions only.

HOUSEHOLD

Adults: [] Teenagers: [] Younger children: [] Pets: []

NEEDS AND DEPENDENCIES

[Mobility / infant care / dietary / refrigeration / pet needs—no diagnoses or medication names]

DECISION STATEMENT AND ASSUMPTION

We need to decide [complete the sentence].

Assumption: [state one assumption clearly].

3 WATER AUDIT

Baseline: 1 gallon per person per day for drinking and sanitation. Show your arithmetic.

SAFE WATER AVAILABLE NOW

[Containers or categories] = [total gallons]

Other water kept separate: [what and why]

CALCULATION

[safe gallons] ÷ [people] = [water-days]

Pet need: [amount + source]

JUDGMENT

What could make the baseline too low? [heat / illness / other]

Confidence: [high / medium / low] because [reason].

4 FOOD AUDIT

Count only food usable without electric cooking or dependable refrigeration.

COUNTING METHOD

I used [meals / servings / calories] because [reason].

Household needs [units] per day.

USABLE INVENTORY

[Food category] — [units]

[Food category] — [units]

Manual can opener: [yes / no / not needed]

CALCULATION AND LIMITS

$[\text{usable units}] \div [\text{daily units}] = [\text{food-days}]$

Dietary limits / assumptions: [explain].

5 BASIC NEEDS + DEPENDENCIES

A missing item is evidence. Use general categories, never private details.

HYGIENE AND HEALTH

[soap / toilet paper / first aid / menstrual / infant / pet supplies]

Critical dependency: [general category + estimated days]

LIGHT, TEMPERATURE, INFORMATION

[flashlights / batteries / radio / blankets / safe clothing / power banks]

GAPS AND MORALE

Strongest category: []

Most urgent gap: []

No-power morale resources: [].

6 SANITATION WITHOUT SEWER

Do not perform a waste experiment. Follow official and local public-health guidance in a real event.

CLEAN HANDS + TOILET ARRANGEMENT

Hand-cleaning plan: []

Designated toilet arrangement: [adult-approved, general description]

SEPARATE AND CONTAIN

How waste stays away from people, pets, food, and water: []

Trash and odor plan: []

FAILURE POINT

Sanitation remains workable for about [] days because [].

The home becomes unsafe when [trigger].

7 RATIONING + HOUSEHOLD ROLES

State each rule, its reason, and the trigger for changing it.

RATIONING RULE

Rule: [Day 1 / trigger / stages]

Reason: []

Reconsider when: []

ROLES AND BACKUPS

[Role] — [person by relationship, not name] — backup []

[Role] — [] — backup []

FAIRNESS AND CONFLICT

Needs that make equal portions unfair: []

How supplies are logged: []

How disagreement is resolved: [].

8 NEIGHBORS + MUTUAL AID

Identify households only by relationship, never by name or address.

COST–BENEFIT ANALYSIS

[Neighbor relationship]: benefits []; costs/risks []; trust evidence []

[Optional second household]: []

PRE-EVENT BOUNDARIES

We may share []. We keep [] private.

Help is [gift / exchange / pool]. Requests are [made and recorded how].

YOUR CLAIM

Likely pattern: [every household for itself / mutual aid / middle ground]

Reason and evidence/assumptions: []

Safe exit from agreement: [].

9 LAWFUL, NONVIOLENT SECURITY

Do not include entry-point details, traps, confrontation plans, or weapon information.

PREVENT

[general lock/privacy/buddy measures]

Family code-word concept (do not write the actual word): []

RESPOND

If a threat appears: [move to safe interior location / alert household / contact help when possible]

No minor's role includes confrontation.

BOUNDARY AND TRIGGER

Neighbor check-in boundary: []

Security plan changes when: [].

10 COMMUNICATIONS: PACE

Primary, Alternate, Contingency, Emergency — do not transmit for this assignment.

PRIMARY + ALTERNATE

P: [method, recipient, limitation]

A: [method, recipient, limitation]

CONTINGENCY + EMERGENCY

C: [method, message location or signal, limitation]

E: [last-resort method, safety rule]

INFORMATION

How we receive official news without internet: []

How we prevent rumors: []

What we write on paper now: [].

11 BOTTLENECK + SAFE SHELTER TIME

Your answer is the lowest defensible system estimate, not the most optimistic number.

SYSTEM ESTIMATES

Water: [] days Food: [] days Sanitation: [] days
Critical supply: [] days Safe temperature: [] days

CONCLUSION

Safe shelter time = [] days because [system] fails first.
Confidence and weakest assumption: []

EXTEND AND RECONSIDER

No-cost improvement: []
Low-cost future purchase + estimated price: []
Agreement more valuable than an object: []
Unsafe-to-remain trigger: [].

12 FAMILY BRIEF: OUR SITUATION

This and the next two slides should stand alone. Remove private inventory details.

OUR ESTIMATE

We could safely shelter about [] days.

OUR POSITION

Biggest strength: []

Biggest gap: []

WHY

The system that limits us is [] because [plain-language explanation].

13 FAMILY BRIEF: OUR DAY 1 PLAN

Summarize decisions people could actually follow under stress.

PEOPLE AND SUPPLIES

Roles: []

Rationing rule: []

HEALTH AND INFORMATION

Sanitation rule: []

PACE communication summary: []

COMMUNITY AND SAFETY

Neighbor boundary: []

Nonviolent safety rule: [].

14 FAMILY BRIEF: THREE DECISIONS

Choose realistic conversations, not an expensive shopping list.

DECISION 1

[What should we decide?]

Benefit / cost: []

DECISION 2

[What should we decide?]

Benefit / cost: []

DECISION 3

[What should we decide?]

Benefit / cost: []

15 RESPONSE + FINAL REFLECTION

Record one response without naming the person. If no one is available, critique your weakest assumption.

RESPONSE

The person [agreed / questioned / changed] [idea] because [reason].

REVISION

I changed or would change [] because [].

COURSE CLAIM

Some decisions are best made before they are needed because [].
What this reveals about people under scarcity: [].

TEACHER SUBMISSION

Replace bracketed prompts with your work. Delete directions if you need space.

16 SOURCES + SUBMISSION CHECK

Add every source that affected a number or decision. At least three must appear in your work.

STARTING SOURCES

Ready.gov Water — <https://www.ready.gov/water>

Ready.gov Kit and Plan — <https://www.ready.gov/kit>

CDC Water Emergency — <https://www.cdc.gov/water-emergency/about/index.html>

USDA Food Safety in an Emergency — <https://www.fsis.usda.gov/food-safety/safe-food-handling-and-preparation/emergencies/food-safety-emergency>

YOUR ADDED SOURCES

[Title, organization, URL, and the decision it informed]

[Title, organization, URL, and the decision it informed]

FINAL CHECK

- ☐ Math shown
- ☐ Bottleneck defended
- ☐ Rules have triggers
- ☐ Sanitation / roles / neighbors / security / PACE addressed
- ☐ No private or dangerous details
- ☐ Family slides make sense alone
